Parent Title Parent First Name Parent Last Name

Dear Parent/Carer,

We are working closely with Walter to try and improve the situation around school for dropping off and picking up, particularly as the pavements are so narrow and we have over 1,000 people converging on the schools within a half hour window. This morning we are going to trial opening the St Paul's field opposite our playground gates. This will open up a large space where parents can wait with children until their allocated drop off time. The site controllers of both schools will be on hand to indicate when it is time for the pupils of each year group to go into school. Many parents were concerned about the lack of social distancing outside our schools, and we would like to remind everybody that it is the only way to keep people safe and guarantee our schools remain open.

Kind regards,

Mrs Taylor, Headteacher
